

**Memorandum of Understanding on the Scientific Collaboration**  
**between the Japanese Society for Oral Health and the Korean Academy of Preventive Dentistry and**  
**Oral Health**

1. Objective

The objective of this Memorandum of Understanding on Scientific Collaboration between the Japanese Society for Oral Health (JSOH) and the Korean Academy of Preventive Dentistry and Oral Health (KAPDOH) is to contribute to improving the oral health of the citizens of Japan and Korea through the scientific activities of the JSOH and KAPDOH by exchanging views, knowledge, and technology concerning oral health.

2. Establishment of a Collaborative Relationship between JSOH and KAPDOH

1) Development of good relations between the members of the JSOH and KAPDOH

Through the scientific activities conducted by the JSOH and KAPDOH, we shall develop and strengthen good relations between the members of both organizations and make every effort to establish and promote a collaborative relationship between both parties in the field of oral health. Through such activities, it is hoped that not only shall advances be made in specific aspects of oral health, but the relationships created, good will, and fellowship generated shall also benefit both Japanese and Korean members.

2) Exchange of academic information

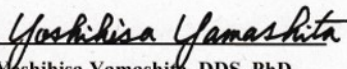

We shall deepen the mutual understanding between us by exchanging academic information with each other.

3) Exchange of speaker(s) at invited lecture(s)

We shall exchange information across borders in the field of oral health through scientific lecture(s) by the invited speaker(s) at the regular annual meeting of the JSOH and KAPDOH.

3. Enactment of- and Revisions to this memorandum

The memorandum shall come into effect upon being signed by the representatives of both organizations. The approval of both parties shall be required for any revision of this memorandum.
